Mr. Ty Allen
Simulated Grass Technologies Inc./ ForeverLawn, Inc.
8775 North Orlando Avenue
Maitland, Florida 32751

Dear Ty,

I wanted to write you a letter to thank you for the wonderful job that you and your workers did on our preschool playground. You are a true professional! You were timely in your communication, thorough in your information and printed materials and dependable in the execution of the job. From start to finish it was an absolute pleasure doing business with you. I appreciate your patience while working with the numerous boards and committees that are so common in religious institutions.

More importantly, your ForeverLawn Playground Grass is just what we needed. Our small facility is limited in space, therefore we believe it is important to capitalize on the areas that we do have. The grass looks beautiful, green and clean even below our oak trees that make it difficult to grow real grass. The kids love sitting and playing on it and the teachers find it to be a much better alternative to the hot, black tire chips, which preceded it. The parents also love this new product and many have expressed an interest in using it in their own yards and playgrounds.

We are so thrilled with our decision to put the synthetic grass on our playground. In the future, when we must replace our other playground surfaces, we will definitely return to you and your excellent product. I would also be happy to speak with any of your potential customers to give you my seal of approval. I wish you the best!

Best Regards,

Jill Band
