Clermont, FL 34711

Dear Ty:

I wanted to let you know that we have had great reviews from the community since we began installing Playground Grass by ForeverLawn. Parents are exceptionally impressed with it; especially where we have replaced sand fall zones with it. They are commenting on how clean their children stay! Additionally, everyone thinks the appearance is great and they are impressed with the resiliency of the surface.

We have seen several instances where parents have put toddlers on the grass to play because of the cleanliness and texture of the surface.

We were in the field with one of our City Commissioners last week and it was his first "up close" exposure to Playground Grass. He was very impressed and wants us to continue installing it wherever we can in our playgrounds. He is also the father of a very active youngster so he speaks with experience.

With the cost being significantly less than some of the other surfacing products we have installed and the eight year warranty, it has made a substantial impact on our capital projects budget and operations. Having already installed it in eight playgrounds and having it specified in future projects, I think Hollywood will benefit in many ways from your Foreverlawn products.

Looking forward to working with you in the future.

Sincerely,

Jack Mathison
Assistant Director
